

RS Connect 15th March 2023 - The Telford International Centre

Join us at our 2nd **RS Connect**, an opportunity to network, share, learn and connect. The event will be held at the Telford International Centre, an easily accessible, custom build conference and exhibition venue in the heart of the Midlands.

This event combines a tradeshow style expo with keynote speakers and opportunities to explore the solutions and services offered by RS. Held in hall 3 of the TIC the exhibition will include over 70 industrial product manufacturers, available to share information on the latest product and technology developments.

In our seminar area we'll be hosting various guest & expert speakers talking about subjects such as maintenance best practice, technology innovation and other hot topics. A buffet style lunch will be served to all visitors, along with the opportunity to network with the RS team.

Early highlights from our exhibition area

FLUKE

LEDVANCE

Newell Rubbermaid

Siretta

Enabling Industrial IoT

Schneider
Electric

StanleyBlack&Decker

TENGTOLS

We really hope you can join us for this unique and informative event.
